IN THE UNITED STATES
PATENT AND TRADEMARK OFFICE

Appl. No. : 10/076,578
Applicant(s) : Luciano III, Frank J.
Filed : 02/13/2002
Title : NET-AWARE TELEPHONE SWITCH
TC/A.U. : 2661
Examiner : Phunkulh, Bob A.
Atty. Docket : CN920010005US1

CERTIFICATE OF MAILING OR TRANSMISSION

I hereby certify that this correspondence is being deposited with the USPTO using EFS-Web on June 5, 2006 by Christopher R. Pastel.

DECLARATION UNDER 37 CFR 1.131

I, Frank J. Luciano, do declare that I acknowledge that willful false statements and the like are punishable by fine or imprisonment, or both (18 U.S.C. § 1001) and may jeopardize the validity of the application or any patent issuing thereon. All statements made of my own knowledge are true and all statements made on information and belief are believed to be true.

I am the inventor of the invention described in U.S. Application Serial No. 10/076,578 entitled NET-AWARE TELEPHONE SWITCH which was filed on February 13, 2002.

I am employed by the IBM Corporation, and was so employed during the conception of this invention.

I was temporarily working in Beijing, China from July 1997 through January 2004.

I created this invention on January 1, 2001 and documented the invention using Lotus Freelance. The documents I filed in Lotus Freelance are attached as Exhibit A.

I submitted an invention disclosure to IBM on January 15, 2001, part of which is attached as Exhibit B. Note that pages 2 and 3 of Exhibit B are the same drawings as those in Exhibit A. Exhibit D attached herein is the complete automated invention disclosure form which contains links that are not reproducible herein. Exhibit B herein shows the contents of the "doclink" on page 2 of Exhibit D.

Amendment/Response

Reply to Office Action of January 5, 2006

It is my belief that one of ordinary skill in the art at the time of my invention could have built the invention based on my invention disclosure with no more than routine experimentation. The components were all off-the-shelf items, and configuring the hardware and software to complete the interfaces would not have required any sort of major research effort.

I received an e-mail on March 21, 2001 (Exhibit C) from IBM's Japan Intellectual Property Department which indicated some confusion as to where I was physically located, because my permanent assignment was in the U.S. and my assignment to China was only temporary.

I met with other IBM employees in Hong Kong on May 23, 2001 to evaluate my invention.

The evaluation review team's recommendation on May 28, 2001 was to have a patentability search conducted. See Exhibit D, page 7.

The final decision to prepare and file the patent application was made on September 4, 2001. See Exhibit D, page 7. I believe that an outside counsel was tasked with drafting the patent application, but I don't remember who it was or where they were located. I worked with the patent attorney to provide additional details for the application over the next several months. I did not save any copies of the draft applications that were sent back and forth between me and the patent attorney.

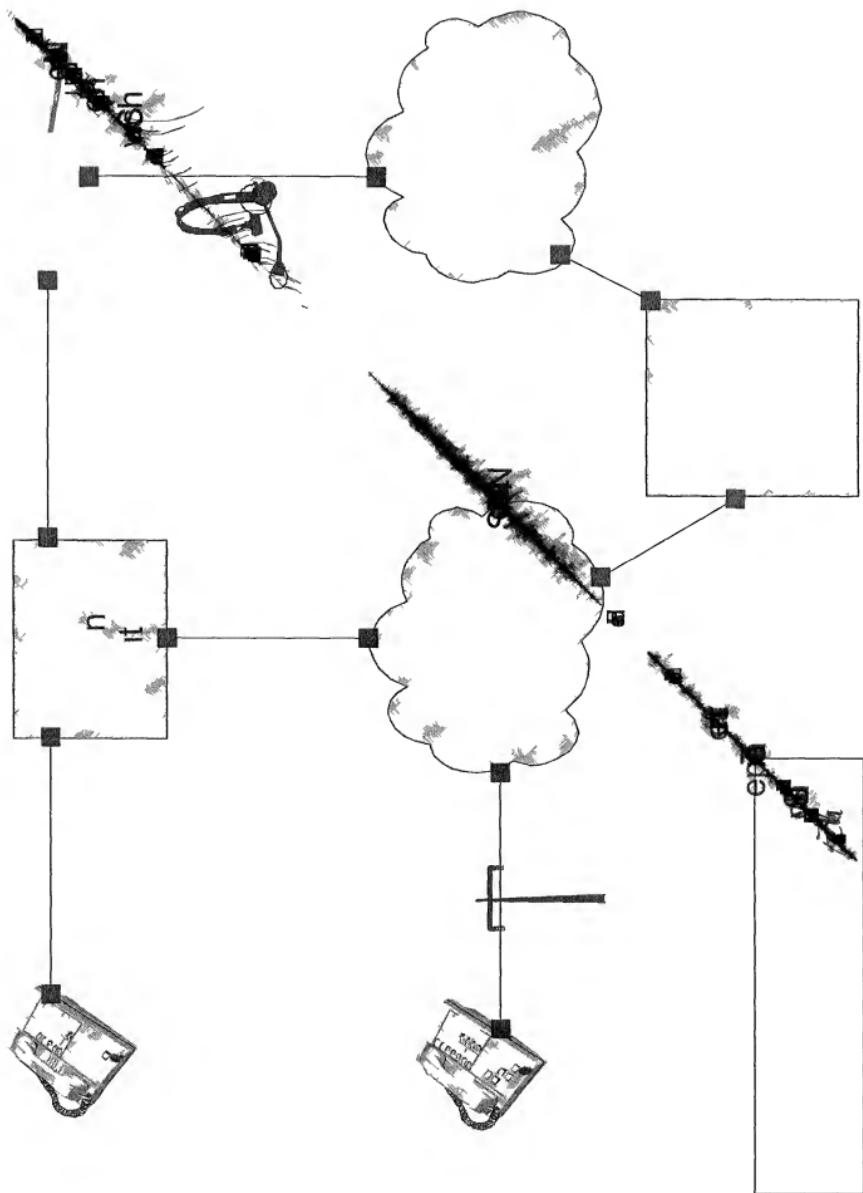

I received a final draft of the patent application on January 15, 2002 for my review.

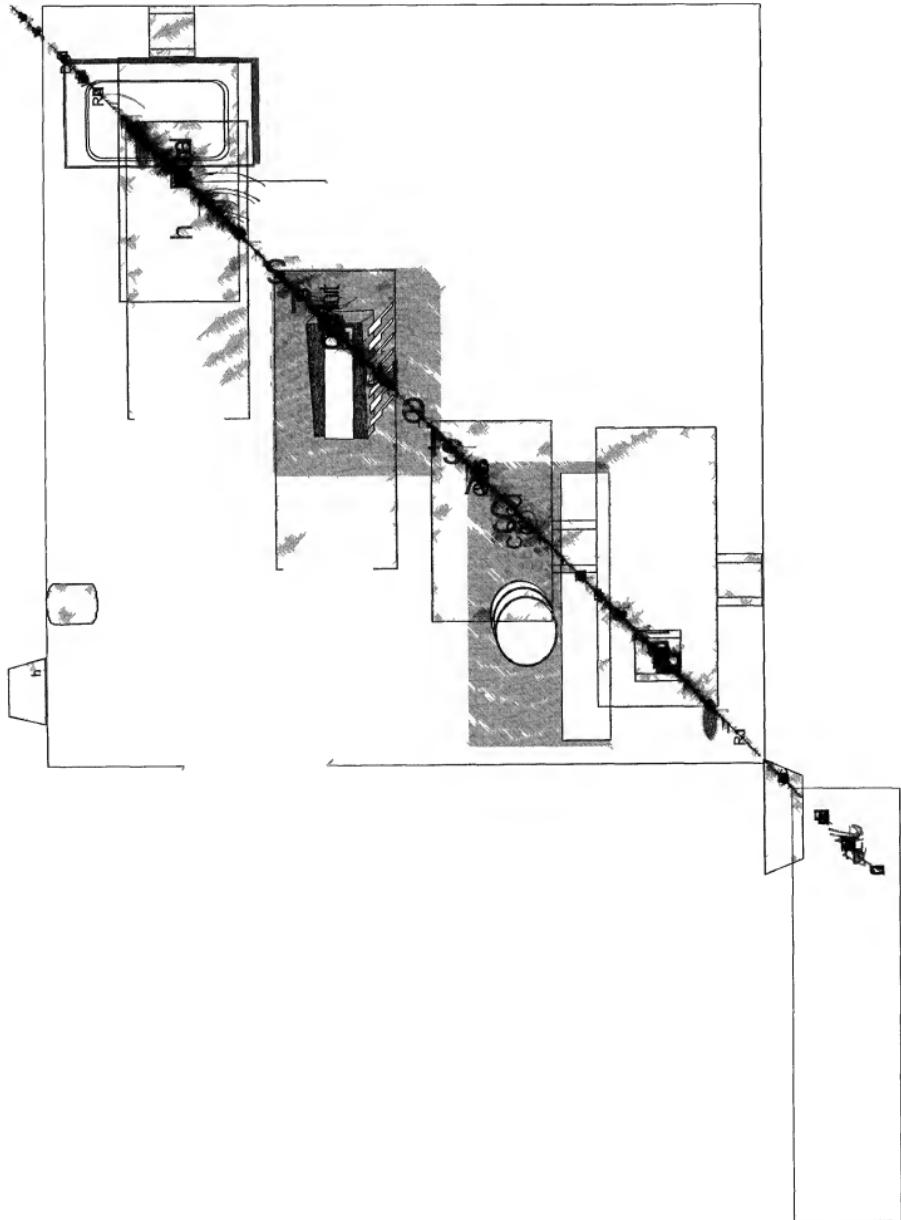

The patent application was filed on February 13, 2002.

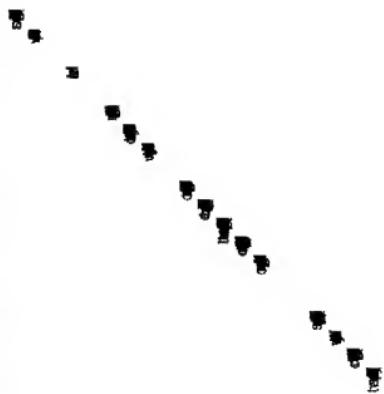

Respectfully submitted,

Frank J. Luciano III
Inventor and Declarant

Luciano-San,

I, Japan-IPD (Intellectual Property Dept.) have received your invention disclosure titled "Net-aware Telephone Switch". I handle invention disclosures from GCG (Greater China Group) Global Services. You, however, do not appear to belong to GCG Global Services in view of your Notes ID, FRANK LUCIANO@Waltham/IBMUS. I'm wondering how this invention was made or conceived.

So I'd like to confirm a few points on this invention. Would you please answer me the following questions at once?

When and where was this invention made or conceived? During your own work in US? Or during your assignment in GCG like Hong Kong or China?

Your quick response will be much appreciated. Thank you.

Best Regards,

Kohtaro Tanaka

***Main I...**

To view the main idea for this disclosure, click on this doclink -->[□](#) (If you are prompted to enter a server name, please enter D01D

Critical Questions (Questions 1-9 must be answered in English)**Question 1**

On what date was the invention workable? 01/01/2001 Please format the date as MM/DD/YYYY
(Workable means i.e. when you know that your design will solve the problem)

***Question 2**

Is there any planned or actual publication or disclosure of your invention to anyone outside IBM?

If yes, Enter the name of each publication or patent and the date published below

Publication/Patent:

Date Published or Issued:

Are you aware of any publications, products or patents that relate to this invention?

Y

N

Y

N

If yes, Enter the name of each publication or patent and the date published below

Publication/Patent:

Date Published or Issued:

***Question 3**

Has the subject matter of the invention or a product incorporating the invention been sold, used internally in manufacturing, announced for sale, or included in a proposal?

Is a sale, use in manufacturing, product announcement, or proposal planned?

Y

N

Y

N

If Yes, identify the product if known and indicate the date or planned date of sale, announcements, or proposal and to whom the proposal has been or will be made.

Product:

Version/Release:

Code Name:

Date:

To Whom:

If more than one, use cut and paste and append as necessary in the field provided

***Question 4**

Was the subject matter of your invention or a product incorporating your invention used in public e.g., outside IBM or in N the presence of non-IBMer?

If yes, give a date. Please format the date as MM/DD/YYYY

Y

N

***Question 5**

Have you ever discussed your invention with others not employed at IBM?

If yes, identify individuals and date discussed. Fill in the text area with the following information, the names of the individual:

Y

N

under CDA, and CDA #.

***Question 6**

Was the invention, in any way, started or developed under a government contract or project?

Y
 N
 N

If Yes, enter the contract number

***Question 7**

Was the invention made in the course of any alliance, joint development or other contract activities?

If Yes, enter the following:

Y
 N
 N

Name of Alliance, Contractor or Joint Developer

Contract ID number

Relationship contact name

Relationship contact E-mail

Relationship contact phone

***Question 8**

Have you, or any of the other inventors, submitted this same invention disclosure or similar invention disclosure previously?

Y
 N

If Yes, please provide disclosure number below:

***Question 9**

Are you, or any of the other inventors, aware of any related inventions disclosures submitted by anyone in IBM previously?

Y
 N

If Yes, please provide the docket or disclosure number or any other identifying information below

Question 10

What type of companies do you expect to compete with inventions of this type? Check all that apply.

- Manufacturers of enterprise servers
- Manufacturers of entry servers
- Manufacturers of workstations
- Manufacturers of PC's
- Non-computer manufacturers
- Developers of operating systems
- Developers of networking software
- Developers of application software
- Integrated solution providers
- Service providers
- Other (Please specify below)

Question 11

If the invention relates to a product or service that is outside the scope of your business unit, please recommend IBM business individual(s) within IBM that you think would provide a good evaluation of your invention:
IBM pervasive computing Group

*Patent Value Tool (Optional - this may be used by the inventor and attorney to assist with the evaluati..

(The Patent Value tool can be used by the inventor(s) to determine the potential licensing value of your invention)
Market

*Question 1: What is the anticipated annual market size (in dollars) that will be captured by your invention?
\$100M to \$1B

Reason(s) for above Answer: 10% of US homes with PC at \$100/device
\$100x(34,000,000)*.5*.1

Claims

*Question 1: How new is the technical field?

Emerging

Reason(s) for above Answer: These type of internet home devices was the newest wave of technology

*Question 2: How central is the invention to the product(s) which might be expected to contain the invention?
Entire Product

Reason(s) for above Answer: these is the entire soloution

***Question 3: What is the scope of the claim?**

Fundamental

Reason(s) for above Answer: I don't know what this means.

Portfolio Need

***Question 1: What are the portfolio needs in the area of your invention?**

Unlisted

Reason(s) for above Answer: what's this

Exploitation & Enforcement

***Question 1: How easily can the use of the invention by a competitor be detected?**

With work

Reason(s) for above Answer:

***Question 2: How easily can the use of the invention be avoided by a competitor?**

With work

Reason(s) for above Answer:

Business Value

***Question 1: What percentage of the companies producing products in the field of this invention might use this invention?**

Broadly cloned

Reason(s) for above Answer:

***Question 2: What is the value of this patent to current or anticipated Alliance Activity between IBM and other companies?**

High value

Reason(s) for above Answer:

***Question 3: What is the value of this patent to current or anticipated Technology Transfer Activity between IBM and other companies?**

High value

Reason(s) for above Answer:

***Question 4: Does it result in prestige to IBM?**

Industry wide

Reason(s) for above Answer:
